Professional Summary

MERN Stack Developer & Team Lead with 10+ years of experience in React, Node.js, MongoDB, TypeScript, AWS/Azure, and CI/CD pipelines. Skilled in microfrontend architecture, scalable backend systems, and mentoring teams. Proven success delivering enterprise solutions in insurance, healthcare, government, and education domains.

Core Skills

- Frontend: React, Next.js, React Native, Micro-frontend (Module Federation), Material-UI, Bootstrap
- Backend: Node.js, Express.js, Strapi, PHP, Kafka, Redis, REST & GraphQL APIs
- Cloud/DevOps: AWS (EC2, Lambda, S3), Azure, Terraform, Docker, Jenkins, GitHub Actions
- Databases: MongoDB, MySQL, MSSQL
- Testing: Jest, RTL, Playwright, Vitest, Selenium, Accessibility (WAVE, AXE)
- Other: OAuth (Okta, Cognito), Stripe, Twilio, Agora, CI/CD automation

Experience

Team Lead & Specialist Software Engineer — LTIMindtree, Pune | 2022–Present

- Led MERN stack projects with microfrontend & microservices architecture.
- Designed scalable cloud solutions (AWS Lambda, Azure Functions).
- Delivered Omni Insurance Portal integrating Genesys Cloud, reusable npm packages, and automated testing pipelines.
- Mentored developers, enforced coding standards, and optimized performance.

Sr. Software Engineer — IndiaNIC Infotech, Ahmedabad | 2021–2022

- Integrated Redis caching and real-time communication via Agora.
- Collaborated in Agile teams to deliver healthcare solutions.

Full-Stack Developer — Logikview Analytics, Indore | 2018–2021

- Built Node.js/Strapi applications with REST API integrations.
- Developed live tracking and enterprise analytics solutions.

Software Developer — Mobigesture, Hyderabad | 2016

- Specialized in responsive front-end design using Bootstrap.

Key Projects

- Omni (Insurance): Cloud-based admin portal with microfrontend, AWS Lambda, MongoDB, CI/CD automation.
- VCare International (Healthcare): Full-stack React/Node solution for aged care management.
- Artis Academy (Education): E-learning platform with React Native, Kafka, Redis, Stripe, and microservices.
- BeeBush (Social Media): Backend developer for scalable Node.js/Redis microservices.
- Government Apps: Bail Management System & Game Reporting — React Native, MSSQL, Azure Functions.

Education

- M.Tech (Computer Science) — OIST Bhopal / RGPV (2013–2015) — 86%
- B.E. (Computer Science) — TIEIT Bhopal / RGPV (2007–2011) — 70.59%
- C-DAC (PG Diploma) — Hyderabad (2016) — 74%
